

We invented a new category of a sustainable yacht,
that looks like **superyacht** and feels like a **luxury home**.

THE 90

The #HouseBoatYacht 90 is the only Yacht
that looks & feels like a luxury superyacht - but you can afford not being a billionaire.

The #HouseBoatYacht is designed to experience an entirely new class of sustainable and luxury yachts.

The #HouseBoatYacht is an exquisite synthesis of luxury and comfort, sustainability and design.

THE 70

The HouseBoatYacht 70 masterfully combines modern #yachtdesign
with luxury comfort for sustainable lakelife.

One of the highlights is the sundeck and beach club like on a superyacht.
The sundeck with solar offers space for lounges, rooftop bar, dining table, BBQ grill and a jacuzzi.

The 360° panoramic windows is the perfect place for relaxation
with beautiful lakeview surrounded by nature, at any time of the day.

Modern exterior yacht design combined with exclusive interior design for luxury homes.

THE 50

The 50 masterfully combines the beautiful silhouette of a modern yacht with the comfort of a luxury home

The 50 is the perfect Yacht for everyone who loves nature, spa & sunsets.
The 360° panoramic lake views and sustainable yachtlife.

50 sqm living area
(12.5m x 4m)

40 sqm sundeck
excl. solarsystem

from 150.000€
price excl. tax

The HouseBoatYacht 50 sets a new definition of entry level for luxury #Yachts made in Germany.

Experience luxury waterfront living and sustainable yachtlife beyond extraordinary onboard the HB50.

Designed,
developed and
made in Germany

The design success is more than creating an elegant 3D visual.

The designers need to be involved in the technical development to see the vision floating on the water.

From aluminium hull to steel-superstructure, from bow to stern. Our experienced team build your HouseBoatYacht vision to life with passion and a wealth of craftsmanship ideas. All this takes place in our industrial facilities in Berlin & Brandenburg, Germany.
